

"could not believe how she has been cured"

I am sending this e-mail to THANK YOU for this GREAT product (NuVet Plus) I received my first order a few weeks ago and I cannot believe the results and my dog waits for it each morning and she loves it.

I have a Bearded Collie (CARLEY) that has turned 13 years old in Nov 09 and has been having problems with her skin and coat for the past few years, I

have been at my VET numerous times concerning this problem and had blood tests and other organ tests which all turned out OK, but I was given medication. This medication would only help for a short period of time. It was recommended that I have her hair cut short which they felt would help to correct the dryness and eliminate the blisters and loosing of her hair, which would just pull out when I brushed her.

Since she has been on the NuVet Plus she does not have any blister and her coat has come back like a Bearded Collie should look. When I had her at the groomer the other week, they could not believe how she has been cured of her problem.

I would like to thank you again for having such a wonderful product.

Thank You

"all her hair was back and she was the puppy that I got a year ago"

I want everybody to know what a wonderful product you have. I had gotten a blue Miniature Pinscher and I was told that they can have skin problems. Well I didn't listen; I was in love with this puppy. I got her home and she was so beautiful and full of energy.

When she turn about a year old I noticed her hair was starting to fall out and she had very bad, dry skin... the vet told me that he could give me nothing for her because that is something that happens to "blues" sometimes.

Someone told me about NuVet Vitamins, and how wonderful they are! I have tried other things and nothing worked, so I figured what do I have to lose? I got a bottle and within a week I couldn't believe what I saw. **Jasmin was full of energy and her dry skin was looking so much better. At the end of the month all her hair was back and she was the puppy that I got a year ago.**

She is 4 now and still takes her NuVet, and she loves it. The vet can't believe the difference it made with her. I tell everybody that meets her about NuVet and the wonderful things it does I'm hooked for life, THANK YOU NUVET FOR HELPING JASMIN.

"Six Weeks Difference"

I had a breeder that called me she had a Yorkie returned to her from a buyer, the buyer stated that the Yorkie's hair was falling out and she was not eating. I took the puppy at 6 months old she only weighed 2 lbs 4ozs. **She was so sick she had no hair and she could only take a few steps before falling over.**

I changed her to a high protein Dog food and started giving her NuVet vitamins. That was 2 months ago and she has hair and is full of life.

She has even gained up to 3 lbs. **NuVet saved her life.**

We are breeders of Havanese, Parson Terriers and Silkies. We have every adult dog and puppy on NuVet, it prevents vet visits. We only see our vet for yearly checkups. We cannot say enough good things about NuVet.
